# Lexiles

- Lexile Framework for Reading – The company MetaMetrics determines Lexile levels, provides search tool for books at [lexile.com](http://lexile.com)
- Lexile levels are given as a number such as 800L (L for Lexile)
- Students may know their Lexile number
- Many books have a Lexile number

# Understanding Lexiles

- Students each get their Lexile reader measure from school reading test
- A book, article or piece of text gets a Lexile text measure when it's analyzed
- Sentence length – longer = higher Lexile
- Word frequency – less familiar words = higher Lexile
- Lexile doesn't analyze content or book design (print size, etc)
